

# Klyro Test Simulation Report

## Scenario: Authority Delay

Generated: 2026-04-29 22:44:34

### Turn 1

---

Prospect:

i need to talk to my partner

Strategy:

DECISION\_CONTROL

Intent:

address stall tactic

Stage:

discovery

Response:

Before you discuss this with your partner, what are the key points you think they'll want to know about our AI SaaS solution?

Next Question:

None

Coaching Tip:

Watch for signs of a stall tactic and gently nudge the conversation forward

Confidence:

0.8

### Turn 2

---

Prospect:

he usually questions ROI a lot

Strategy:

ROI\_REFRAME

Intent:

address ROI concern

Stage:

discovery

Response:

Let's reframe the ROI discussion to focus on the specific business outcomes your company wants to achieve, rather than just the cost.

Next Question:

What are the key performance indicators your partner uses to evaluate ROI

Coaching Tip:

Use the prospect's concern about ROI to transition into a discussion about the business value of the solution

Confidence:

0.8

### Turn 3

---

Prospect:

**we don't decide quickly**

Strategy:

**DECISION\_CONTROL**

Intent:

**acknowledge\_and\_reframe**

Stage:

**discovery**

Response:

I understand deliberation is key, but let's outline the key performance indicators that will be impacted by our AI SaaS solution to ensure all stakeholders are aligned.

Next Question:

**What are the primary metrics your partner uses to evaluate ROI for new investments?**

Coaching Tip:

**Focus on framing the value proposition to address potential ROI concerns**

Confidence:

**0.8**
