

Klyro Test Simulation Report

Scenario: Hesitation + Pricing Combo

Generated: 2026-04-29 22:44:42

Turn 1

Prospect:

i'm just not sure yet

Strategy:

RISK_REVERSAL

Intent:

address_uncertainty

Stage:

discovery

Response:

Let's explore what's driving that uncertainty, as clarity can often be the catalyst for progress.

Next Question:

None

Coaching Tip:

Explore the root of their uncertainty to build trust and understanding.

Confidence:

0.8

Turn 2

Prospect:

what's the total cost if we go ahead

Strategy:

ROI_REFRAME

Intent:

address_cost_concern

Stage:

discovery

Response:

Let's focus on the potential return on investment - for every dollar spent on our AI SaaS, our average client sees a 3x increase in conversions.

Next Question:

None

Coaching Tip:

Reframe the conversation to focus on value and ROI, rather than just cost.

Confidence:

0.8

Turn 3

Prospect:

that's a bit more than i expected

Strategy:

COST_OF_INACTION

Intent:

address_concern

Stage:

discovery

Response:

Let's consider the potential costs of not addressing your current challenges, which could far outweigh the investment in our AI SaaS solution.

Next Question:

What are the primary challenges you're trying to solve with this investment?

Coaching Tip:

Explore the prospect's pain points to understand their motivations and build a stronger case for the solution.

Confidence:

0.8
