

# CLOZFLOW

The AI Sales Operating System

# The **Broken** Sales Stack

Sales teams are drowning in context-switching and siloed data.

Reps jump between Salesforce, Apollo, Aircall, and Gong just to execute a single workflow.

The Core Problem: Most CRMs tell you what happened in the past. They do not tell you *what to do next*.

## **Fragmented Execution**

Siloed tools mean lost revenue. When data doesn't flow naturally, sales reps freeze under pressure.

# One **Central** Intelligence Layer

Connecting every customer acquisition step from first touch to closed deal.

## **1. Find**

Discover active buyers and decision-makers instantly using automated intent signals.

## **2. Prepare**

Know every prospect deeply via automated research and objection prediction algorithms.

## **3. Sell**

Win live conversations with real-time behavioral intelligence and live coaching.

## **4. Execute**

Scale revenue with Pearl, our autonomous outreach agent handling pipelines 24/7.

# Conversation Intelligence

Selling beyond words with real-time AI.

**Live Coaching** Real-time contextual prompts delivered to the rep during high-pressure negotiations.

---

**Behavioral Insights** Sub-200ms latency sentiment analysis and intent detection on live calls.

---

**Objection Handling** AI-generated rebuttals fed directly to the rep before they can freeze or stutter.

---

**Confidence Support** Systematically turning average performers into elite, strategic closers.

# Meet Pearl

The AI Sales Employee. Autonomous. Tireless. Intelligent.

Pearl is not just a copilot. Pearl is an autonomous workflow engine designed to execute outbound pipelines while you sleep.

|                  |                                                        |
|------------------|--------------------------------------------------------|
| <b>Prospects</b> | Finds local leads automatically.                       |
| <b>Drafts</b>    | Sends hyper-personalized multi-channel campaigns.      |
| <b>Qualifies</b> | Handles initial inbound interest and basic objections. |
| <b>Books</b>     | Schedules meetings directly onto your calendar.        |

# The Product **Flywheel**

A proprietary moat built on continuous behavioral data.

Every interaction feeds the Clozflow Engine, continuously optimizing strategies.

# The Vision

We are building the definitive  
operating system for modern sales.
